Darshan Joshi

MERN Stack Developer | BCA Student

Kalol, Gujarat, India | +91 9429601468 | darshanjoshi.dev@gmail.com
Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Motivated and detail-oriented BCA student and aspiring MERN Stack Developer with hands-on experience building full-stack web applications, RESTful APIs, and responsive user interfaces using React.js, Node.js, Express.js, and MongoDB. Eager to contribute technical skills, dedication, and problem-solving abilities as a software development intern or junior developer.

TECHNICAL SKILLS

- **Languages & Core:** JavaScript (ES6+), HTML5, CSS3, PHP (PDO)
- **Frontend:** React.js, Vite, Responsive UI, Tailwind CSS
- **Backend & APIs:** Node.js, Express.js, REST APIs, Middleware
- **Databases:** MongoDB, Mongoose, MongoDB Atlas, PostgreSQL, MySQL
- **Authentication & Tools:** JWT, bcrypt, Postman, Git, GitHub, VS Code, MongoDB Compass, XAMPP, pgAdmin 4

PROJECTS

StudentTools India studenttoolindia.online

Student Academic & Career Platform

- Created a student-focused website offering academic, career, and financial tools using AI-assisted website development tools.
- Utilized AI development tools to help create and structure utility features, calculators, and responsive UI layouts for student productivity.

Shopest — React E-commerce Practice Project

Frontend E-Commerce Application

- Developed a modern e-commerce web application leveraging React.js component architecture and modular state management.
- Implemented dynamic product catalog rendering, shopping cart workflows, and responsive layouts for a seamless user experience.

HireHub — Job & Internship Portal In Development

MERN Stack Portal

- Developing a full-stack job portal featuring distinct candidate, recruiter, and administrator workflows.
- Implementing secure user authentication with Google and GitHub integration using JWT and bcrypt middleware.
- Building RESTful backend endpoints in Node.js/Express.js connected to MongoDB database for job postings and applicant tracking.
